

Santa Barbara Ducati Club

September, 2006

OK all, the newsletter is back by popular demand, or rather, by the prompting of one of the three people who actually read and enjoy them.

In order to try and please the masses, this newsletter comes in Madlibs form. You remember Madlibs, right? Those books where you got to fill in the blanks to make up your own stories? Well, this one works the same. Here is an example:

"It has been great riding weather this summer. A lot of us have been able to take our _____ (Ducati, Jap bike, wife) out for a ride on these beautiful days. I for one am very pleased, since I was having problems with my _____ (engine, tires, prostate gland), but have finally gotten everything sorted out and am back on the road.

As for the Santa Barbara Ducati Club, we have a lot of _____ (activities, angry members, nerve). We will be posting the upcoming schedule of events in the next few weeks, but there will be all kinds of _____ (exciting, dangerous, sensual) events for all the members to enjoy. We have a tech day coming up at Pro Italia the day before Columbus Day. This is so those of us going to the Columbus Day Track Day at Buttonwillow can get our _____ (bikes, egos, excuses to wives) in order for the planned event. Next will be some group rides and a planned BBQ, since we know how much we all love _____ (riding our bikes, hanging out with other men, wearing leather pants). For those of you who missed our special reception for Federico Minoli, it was a truly spectacular display of _____ (rare Ducatis, Walter Claudio's Salon girls, Aveda hair care items). Federico was very pleased and I think we can expect _____ (another visit, courtesy Hypermotards for all Club members, expulsion from the Ducati Owner's Clubs) sometime in the near future.

Speaking of corporate Ducati, have any of you guys been checking out _____ (MotoGP, library books, my new wife) lately? The racing this season has been insane! Less than 25 _____ (points, pounds, millions in career earnings) separate Rossi from GP leader Nicky Hayden, and you can bet the last few races are going to be hotly contested. If you watched Rossi this weekend at Phillip Island, you saw him pass _____ (everyone who got

in his way, gas) including his bitter rival Sete Gibernau in the last turn of the race. He is still the best out there in my opinion, and I am not just saying that because I am enamored of his _____(riding style, determination, curly blonde locks). And hats off to Loris Capirossi and Sete Gibernau for continuing to prove that the Ducati's are arguably some of the fastest bikes _____(in MotoGP, in the history of mankind, costing under a million dollars) that the world has ever seen.

Well that is all for now. For those of you who didn't like this, I _____(apologize, don't care, will pay you to like it). I look forward to seeing all if you at our next Club events, and keep checking the website and message board for upcoming news, events, etc.!!

Ciao!

Phil Delio
